← Most popular among peer group investors

Notes Selected investor targets

OW refers to overweight positions, i.e. the as reported allocation is larger than in a market capitalization weighted peer group portfolio. The diversified vs concentrated exposure classification is based on the number of OW positions per fund across peers (last column). The most/least popular issuer classification is based on the number of OW positions per peer across funds (last row).

Least popular among peer group investors →

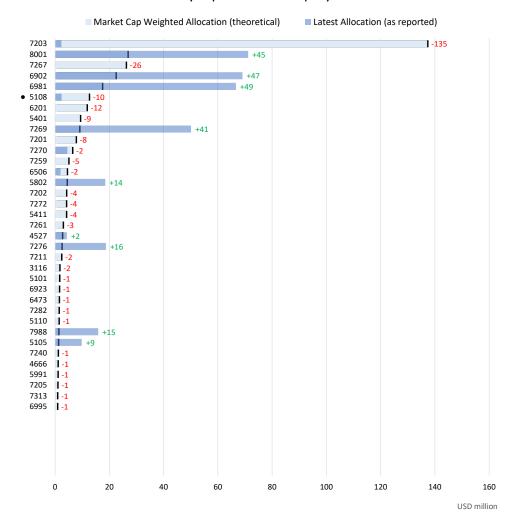

Relative allocation versus

a market cap weighted peer group portfolio

Bridgestone Corp

Selected Investor Target

Fidelity Japan Growth Equity Fund

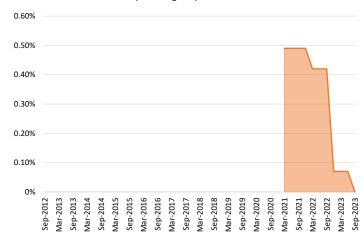

A total of \$335 million allocated across 13 peers (\$324 million to 9 overweight positions).

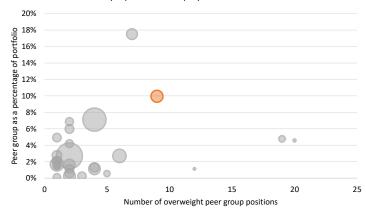

Positive/negative labels indicate the difference between theoretical market cap weighted allocation and as reported allocation.

Fund's parent company: FIL Investments (Japan) Limited

5108 as a percentage of portfolio over time
